

# Support *Ford Visteon Workers* Fighting for their rights!

Ford Visteon car part workers in Belfast, Basildon and Enfield were sacked on 31 March with no pay and told that their Ford contracts that entitled them to redundancy and pensions had been ripped up. The workers, members of Unite the union, occupied their factories in response. The Belfast occupation is still going strong and the other plants are being picketed in the fight for justice. Come and join the protest to make Ford honour their contracts with these workers.
